

DEGREASING & MAINTENANCE

CONTECT

Multi-Purpose Service Spray

FEATURES & BENEFITS

Lubricant - can be used on intricate machinery parts to improve efficiency & reduce friction

Water Displacing - ideal for removing moisture from electrical apparatus

Low Viscosity - easily applied, with a sprayer for economy

Multi-functional - with a blend of aliphatic hydrocarbon solvent, light mineral oil, corrosion inhibitors, & water displacing additives - makes ConTECT effective for many jobs

Silicone Free - easily removed, no adverse effect on metal finishing

Film Forming - good protection against corrosion

High Flash Point - low fire hazard so can be used in most situations
